Projects

PwC Switzerland Power BI Job Simulation | *Excel, Power BI, Dax, Power Query* | Dashboard   **December 2024**

- Completed a job simulation where I strengthened my Power BI skills to better understand clients and their data visualisation needs.
- Demonstrated expertise in data visualization through the creation of Power BI dashboards that effectively conveyed KPIs, showcasing the ability to respond to client requests with well-designed solutions.
- Strong communication skills are reflected in concise and informative email communication with engagement partners, delivering valuable insights and actionable suggestions based on data analysis.
- Leveraged analytical critical thinking skills to examine HR data, particularly focusing on gender-related KPIs, and identified root causes for gender balance issues at the executive management level, highlighting a commitment to data-driven decision-making.

Tata Group Data Visualisation / *Tableau, Excel, Calculated field* | Dashboard   **January 2025**

- Completed a simulation involving creating data visualizations for Tata Consultancy Services.
- Prepared questions for a meeting with client senior leadership.
- Created visuals for data analysis to help executives with effective decision making.

Office Master Workshop- AI-Powered Interactive Dashboard in Power BI in Under 30 Minutes   **January 2025**

- Leveraging DAX code to simplify data analysis.
- Integrating AI for faster and smarter insights.
- Industry-level workflows for practical applications.
